
A new product update from... dla

Litecontrol introduces the first Cradle to Cradle certified architectural lighting fixtures.

LITECONTROL

1) Cradle to Cradle (C2C) is one of the first "green" certification programs to use a multi-criteria approach to address product design and manufacturing (link):

http://www.mbdc.com/c2c_nir.htm

2) Cradle to Cradle certified products can earn a LEED point for Innovation in Design (link to LEED credit info): http://www.mbdc.com/cert_innovation_credit.htm

3) All Litecontrol products have received the C2C certification (frequently asked questions):
