**Kirlin introduces feature rich 12W and 20W LED Downlights, Adjustables and Wall Washers**

**Features include:**

- 12W and 20W light engines
- Up to 1000 lumens and 84 CRI
- 4 beam spreads (0.3 to 1.0 SC)
- Several round and square trim styles and finishes
- Center beam adjustable optics
- Self-aligning downlight optics
- Type IC and AirTight designs
- 50,000 hour LED life
- Kirlin's Exclusive 5 Year Limited Warranty

# Kirlin's Exclusive Type IC LED Downlight and Accentlight Features

## Self-Aligning Optics

LED light engine self-aligns with trim for optimal efficiency and visual comfort in all downlight designs.

## Rustproof and Corrosion Resistant All Aluminum Housing

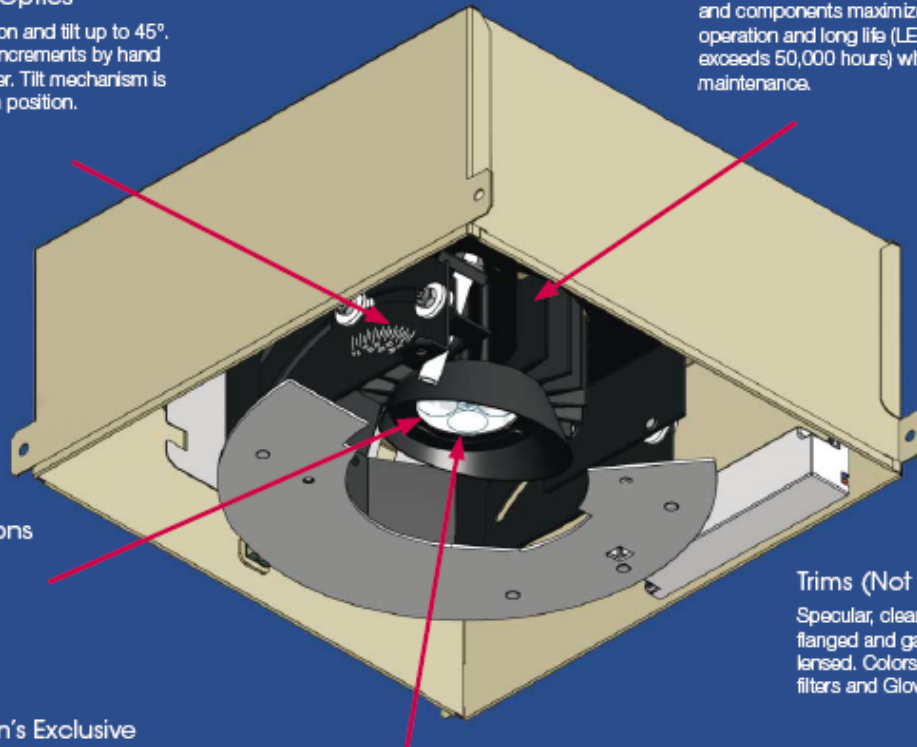

Ensures cool operation and extended luminaire and LED life. Lightweight for easier installation.

## Thermal Management System

Proprietary aluminum heat sink, housing and components maximize luminaire's cool operation and long life (LED light engine exceeds 50,000 hours) while minimizing maintenance.

## Center Beam Optics

Locking 365° rotation and tilt up to 45°. May be tilted in 1° increments by hand or with a screwdriver. Tilt mechanism is indexed to maintain position.

## Four Distributions

SPT (0.3)  
NFL (0.5)  
MFL (0.7)  
WFL (1.0)

## Kirlin's Exclusive Five Year Limited Warranty

Entire fixture is protected by Kirlin's exclusive five year warranty.

## LED Light Engine

20W: 1000 lumens, 50 lpw, 84 CRI.  
12W: 450 lumens, 38 lpw, 82 CRI.  
Over 50,000 hour life. Removable for servicing.

## Trims (Not Shown)

Specular, clear aluminum self-flanged and gasketed, open or lensed. Colors, Softex finishes, filters and Glow Rings optional.
